Hi Sue,

Attached here are RDX (or Hexahydro-1,3,5-trinitro-1,3,5-triazine) working drafts of the versions we anticipate releasing to the public on or about March 10th. Included here is the draft Toxicological Review, draft Supplemental Information to the Toxicological Review (i.e., appendices), and the draft peer review charge. I am also including a list of the areas of expertise needed for RDX with a notation for the areas that are more important and require several experts. For completeness, I am also including an updated version of the project sheet.

Deliberative Process / Ex. 5

Let me know if you have any questions!

Thanks,
Samantha
